"Solutions for a streamlined project"

Dedicated Internet Access

Jet Communications' Dedicated Internet provides business class, high bandwidth connections to the Internet. Our goal is to provide you with a dedicated circuit connected to the Internet 24 hours a day, seven days a week, 365 days a year. The type of access you choose is determined by your needs, location, and budget. While all of our dedicated services utilize our unique network architecture and offer superior reliability, there are distinct differences that will determine the best solution for your situation.

Dedicated Internet Access services available from Jet include:

T1

Our T1 and above services offer 100% throughput to the Internet and robust SLAs on performance. Jet Communications also offers you static IP addresses in block sizes suitable for any business.

Bonded Services

Our dedicated Internet is deliverable via T1, Bonded T1 (up to 12MB), or DS3, giving you scalable options for any business.

Ethernet

Jet delivers simple, scalable, cost effective Business Ethernet with competitive price points and speeds up to 10GB offered by optical solutions. Our Business Ethernet service gives you a symmetrical, high bandwidth connection with guaranteed speeds and uptime.

About Jet

Jet delivers the most advanced telecommunications solutions on the market to a wide spectrum of businesses and organizations across the Northwest. Since 2006, we have built a legacy of success through exceptional customer care, cutting edge products, and powerful solutions. These strengths enable us to deliver scalable solutions that help customers improve their businesses. For more information, please visit www.JetCommunications.net.
