"Solutions for a streamlined project"

T1/PRI Services

T1 & PRI services provide clients with DID capability, allowing customers to create trunk groups in their PBX system. They are used by growing businesses as a cost effective way to maximize their communication needs. Jet creates a custom digital solution for each client based on their business model. With conveniences like 3 or 4 digit dialing and easy scalability, T1/PRI are a favorite solution for many medium to large sized businesses.

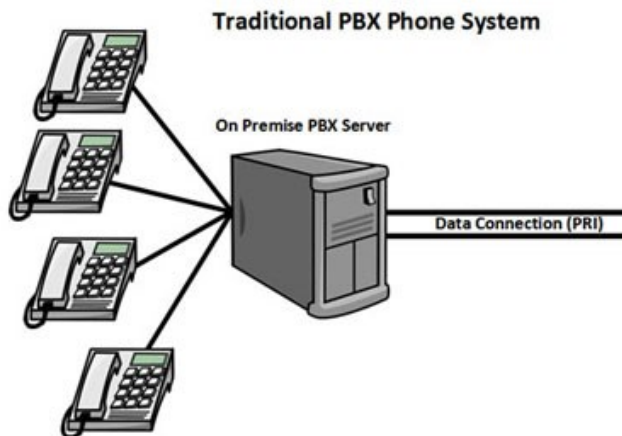

Standard Features:

Call Forward Busy No-Answer	Three-Way Calling
Caller ID Name & Number	Call Transfer
Call Forward Busy	Hunting

**Additional features available*

Number Portability:

Jet Communications recognizes the need for local number portability, which allows you to keep your current telephone numbers. Our services also include a listing in the white pages along with directory assistance capabilities so that new and existing customers can find you.

About Jet

Jet delivers the most advanced telecommunications solutions on the market to a wide spectrum of businesses and organizations across the Northwest. Since 2006, we have built a legacy of success through exceptional customer care, cutting edge products, and powerful solutions. These strengths enable us to deliver scalable solutions that help customers improve their businesses. For more information, please visit www.JetCommunications.net
