"Solutions for a streamlined project"

Bulk High-Speed internet

Bulk HSI service is a great way to add value to your income property. Whether you own an RV park, senior living facility, hotel, apartment complex, manufactured home community, hospital, or university, **Jet's** Bulk HSI Service is a must have. With scalable options and individual upgrade capabilities, you can save money and provide an amenity that will help keep your customers happy.

Latest in Technology

Fiber to the Curb (FTTC)

A dedicated fiber circuit for your property; distribute via Wi-Fi, coax, or existing infrastructure.

Docsis 3.0

The same system used by the cable companies to deliver individual modem service over an existing coaxial cable infrastructure.

Passive Optical Network (PON)

If you are building a new property, it's important to future proof your investment. Installing a PON through **Jet** creates a network capable of extremely high bandwidth that will deliver video, voice, and data simultaneously.

About Jet

Jet delivers the most advanced telecommunications solutions on the market to a wide spectrum of businesses and organizations across the Northwest.
